Effective Fall 2025

## LAS courses - Curriculum Z' - Effective Fall 2025

- 1 - Artificial Intelligence Courses (3 credits)
- 2 - Change Makers Courses (6 credits)
- 3 - LAS Free Elective, Arts & Humanities (3 credits)

———— Prerequisite  
----- Corequisite

While sitting for the MCAT entrance exams does not require candidates to have taken any particular liberal arts course, some questions may require knowledge of psychology and sociology. It is therefore recommended that students in the pre-med track take **PSY201 Intro to Psychology** and **SOC201 Intro to Sociology** to increase their chances of passing the MCAT. These courses do not count towards meeting the university requirements of Liberal Arts and Science Curriculum, and thus they will need to be taken above and beyond the required 12 credits of LASC electives.
